

Join the WES Hanover Business Association  
And help local businesses succeed and grow

The WES Business Association was organized in 1985 with 10 members all located in West Hanover Township. Through the years that growth was stalled because of no public sewers or water. The moratorium of no building was imposed around 1986 by our local government for the townships, and then in 1996 public sewer and water became available to the area. The ban was lifted so residential and commercial growth started to put money and problems into the townships. The business association was there to help local business with the local government to make changes and guidelines for the growth and the betterment of the community. There are some that say growth was and is not good for our area, this idea is not the American way.

## WES Hanover Business Association

*The growing  
organization that  
connects the area's  
businesses with the  
people*

Membership  
Application

2019
